Interview Summary

Applicant's undersigned representative, Mr. Eiferman, and the Examiner participated in a telephonic interview on January 23, 2006. As noted in the Examiner's interview summary, the Examiner suggested that the claims be amended to more clearly describe the graphical user interface aspect of the invention. The Examiner also suggested that the term "predetermined number," which formerly appeared in the claims, be changed to more clearly describe the concept of a maximum number of displayable differences per level. As can be seen in the above claim amendments, Applicants have fully complied with the Examiner's suggestions in new claims 43-60.
